

Follow-on Service Project Report Guidelines

Gilman Scholars are required to complete their Follow-on Service Projects and submit a 1-2 page report within 6 months of their return to the U.S.

Your report should summarize:

- Your study abroad experience and the impact the experience had on you academically, professionally, and personally. If your experience abroad strengthened or changed your academic or career goals, please discuss.
- Describe any unique aspects to your time abroad (i.e. career-oriented internship, volunteer opportunities, home-stays, etc.).
- Whether the experience has encouraged you to pursue further opportunities abroad.
- A description of your Follow-on Service Project and an evaluation of the impact of your project on your target audience.

Submit your Follow-on Service Project report via the online Gilman Alumni portal.

- Login to your online Gilman account. Update your alumni information.
- Review your originally proposed Follow-on Service Project.*
- Follow the given instructions to enter and submit your project report.
- Include links to your blog, video, or any other online resources used in completing your project. You may also provide photos of your experience abroad to share with the Gilman Program.
- Gilman Program staff will review and confirm receipt of your report submission.

**Modifications/Extension Requests: When there are circumstances which make it impossible for you to carry out the project originally proposed in your Gilman Scholarship application, the Gilman office will review revision/extension requests and provide you approval or further feedback. Follow the steps provided in the Gilman Alumni portal to submit such a request.*

Gilman alumni questions can be directed to gilman_scholars@iie.org or call 832-369-3476.
