SECTION 1: BACKGROUND AND PURPOSE

Institute of International Education

The Institute of International Education ((IIE) is a New York not-for-profit corporation that is among the world's largest and most experienced international education and training organizations. Founded in 1919, IIE promotes educational exchange around the world through a wealth of programs and services including Fellowship and Scholarship Management, Higher Education Institutional Development, Emergency Student and Scholar Assistance, and Leadership Development. For 100 years, IIE has promoted educational exchange around the world. IIE currently implements more than 200 programs benefiting 40,000 participants from 183 countries. Foremost among these programs is the world-renowned Fulbright Program, which IIE has had the honor to administer on behalf of the U.S. Department of State since the program's inception in 1946. In addition to the U.S. Department of State, program sponsors include: the U.S. Agency for International Development (USAID); World Bank; major philanthropic foundations; private and public corporations; foreign governments; and individuals. IIE has its global headquarters in New York City and additional offices around the world, including in the United States (Washington, D.C.; Chicago; Denver; Houston; and San Francisco) and in other countries (China, Egypt, Ethiopia, Hungary, India, Indonesia, Mexico, Russia, Thailand, Ukraine, and Vietnam).

Benjamin A. Gilman International Scholarship Program

The U.S. Department of State's Benjamin A. Gilman International Scholarship Program enables students of limited financial means to study or intern abroad, thereby gaining skills critical to our national security and economic prosperity. The merit-based Gilman Program broadens the student population that studies and interns abroad by supporting undergraduates who might not otherwise participate due to financial constraints. Gilman scholarships are up to \$5,000. The Gilman Program aims to encourage students to study and intern in a diverse array of countries and world regions. The Gilman Program also encourages students to study languages, especially critical need languages (those deemed important to national security and diplomacy) and provides limited additional funding through the Gilman Critical Need Language Award which is up to \$8,000. By supporting undergraduate students who have high financial need, the program has been successful in supporting students who have been historically underrepresented in education abroad, including but not limited to first-generation college students, veterans, students in a wide array of fields, ethnic minority students, students with disabilities, students

attending HBCUs or other minority-serving institutions, students attending community colleges, and students coming from U.S. states with less study abroad participation. The Gilman Program seeks to assist students from a diverse range of public and private institutions from all 50 states, Washington, D.C., and all U.S. territories. The Gilman Program is a program of the U.S. Department of State with funding provided by the U.S. government and supported in its implementation by IIE.

Critical Language Scholarship Program

The U.S. Department of State's Critical Language Scholarship (CLS) Program is an intensive overseas language and cultural immersion program for American undergraduate and graduate students enrolled at U.S. colleges and universities. The program includes intensive language instruction and structured cultural enrichment experiences designed to promote rapid language gains in 15 critical languages: Arabic, Azerbaijani, Bangla, Chinese (Mandarin), Hindi, Indonesian, Japanese, Korean, Persian, Portuguese, Punjabi, Russian, Swahili, Turkish, and Urdu. CLS offers approximately 550 awards per year for eight- to ten-week summer overseas language immersion programs. CLS is part of a wider government initiative to expand the number of Americans studying and mastering foreign languages that are critical to national security and economic prosperity. The CLS Program is a program of the U.S. Department of State with funding provided by the U.S. government and supported in its implementation by American Councils for International Education.

Workshop Overview

The Gilman and CLS Advisor Workshop is a benefit made available to advisors of the Benjamin A. Gilman International Scholarship Program and the Critical Language Scholarship Program, both of which are programs of the U.S. Department of State, Bureau of Educational and Cultural Affairs, with funding provided by the U.S. government.

The workshop participants will be Gilman and CLS advisors who work in study abroad, financial aid, career services, and academic advising offices, as well as regional studies and language faculty and fellowship programs. They may range from advisors who are new to the Gilman and/or CLS Programs to seasoned advisors with many years of experience. They also represent a variety of institutions (public and private), including community colleges.

The workshop should be highly participatory, with energetic and interactive activities during all sessions. Ample time must be allowed for participants to share their experiences with each other and with featured panelists and speakers (as applicable). Additionally, adequate time should be allocated for participants to reflect on and document knowledge gained throughout the workshop. Tangible takeaways should be built into every portion of the workshop. Creative, structured networking activities during breaks or lunch are encouraged. The overall structure and content of the workshop is outlined in Attachment A.

The Quotation Form should include the institution's definition of what an "interactive session" means and the selected host institution will ensure all facilitators, panelists, and speakers understand the importance of this aspect of the workshop. A mix of speakers, panels, and roundtable discussions is encouraged. Facilitators, panelists, and speakers must be approved by IIE prior to being confirmed for the workshop.

Applicants are encouraged to partner with another institution to develop a quotation and to integrate diverse institutional perspectives into their session content. If institutions decide to partner, they should submit one Quotation Form, and the form should include clear delineation of responsibilities between the institutions and the proposed workshop staff (e.g., workshop organizer, workshop facilitator(s)). Collaboration could range from full co-facilitation of the workshop to co-facilitating a single session.

Objectives of the Advisor Workshop

- To share best practices for:
 - Promoting the Gilman and CLS Programs to potential applicants;
 - Supporting applicants during the application process;
 - Engaging with alumni upon program completion; and
 - Leveraging alumni for recruitment and promotion.
- To provide advisors with in-depth resources for and updates to the Gilman and CLS Programs.
- To build and strengthen the Gilman and CLS advisor networks for future sharing of resources and best practices

Benefits to Host Institution

- The workshop is cost-reimbursable, including facilities costs and labor.
- It is an opportunity to demonstrate the institution's leadership in the area of study abroad.
- It is an opportunity to provide professional development on the topic of national, merit-based scholarships for higher education professionals from institutions across the nation.
- It is an opportunity to be engaged with the U.S. Department of State, Bureau of Educational and Cultural Affairs, in addition to IIE and American Councils for International Education.
- The host institution will receive recognition as a host and program partner in Gilman and CLS promotional materials, press releases, websites, and social media.

SECTION 2: SCOPE OF WORK

The host institution will host approximately 50 Gilman and CLS advisors and three program staff for a full-day workshop, to take place on a Friday in May, June, July, August, or September of 2020. The Quotation Form should list all Fridays the institution could host the workshop during these months. The workshop should be approximately eight hours in length, commencing at 8:30 a.m. and concluding at approximately 4:30 p.m.

The host institution will provide the catering, development and delivery of specific sessions, event signage, facilitation of the workshop overall and specific sessions (including the Topical Working Groups), logistical support (i.e., audio/visual support, coordination with campus services, parking, room set up, and any necessary troubleshooting), and the venue.

Workshop Design and Facilitation

Applicants should propose an individual or individuals who will design specific interactive sessions and materials, as well as facilitate the overall workshop and Topical Working Groups. The proposed individual(s) should have familiarity with and knowledge of the Gilman and CLS Programs and national competitive awards, but individuals who are more familiar with and knowledgeable about one program are still eligible and applicants should note in the Quotation Form if these individuals would like additional support and sample materials from Gilman or CLS program staff. The individual(s) will work with Gilman and CLS Program staff to tailor the workshop content to highlight the strengths of the host institution (i.e., study abroad activities, best practices, materials, resources), as well as to meet the needs of the specific locality and/or workshop participants. In addition, the individual(s) will ensure all workshop content has equal representation of the Gilman and CLS Programs.

Pursuant to the authorizing legislation of the U.S. Department of State's Bureau of Educational and Cultural Affairs, the workshop must maintain a non-political character and should be balanced and representative of the diversity of American political, social, and cultural life. "Diversity" should be

interpreted in the broadest sense and encompass differences including, but not limited to, ethnicity, veteran status, race, gender, socio-economic status, and disabilities.

Gilman and CLS Program staff will facilitate sessions aimed at providing specific program resources and information (see Attachment A).

Responsibilities of Host Institution

U.S. Department of State branding must be included. (Branding guidelines will be provided to the selected host institution.) A digital draft of the handbook must be provided to IIE for review ten business days prior to the workshop. Any edits must be incorporated into the final version unless discussed prior with IIE. Participants will receive a digital copy of the workbook after the workshop, and the workbook may be posted on the Gilman, CLS, and/or relevant U.S. Department of State websites to provide resources/training materials on best practices in a variety of key areas for Gilman and CLS advisors across the United States. The workshop handbook must include the following items:

ATTACHMENT B: Session Descriptions

Role of the Gilman and CLS Campus Advisor:

This session should be short and interactive with advisors sharing how they see their roles as Gilman and CLS Advisors, including the challenges and rewards. This discussion should set the stage for more in-depth sessions on essay writing, student support, and outreach.

Promotion and recruitment for the Gilman and CLS Programs

This session should cover best practices for reaching specific student groups (i.e., Pell grant recipients, students studying critical languages, first-generation students) and sharing information with the general campus community so they understand the purpose and expectations of the Gilman and CLS Programs. Advisors should learn about social media and other communication systems that can be used to access diverse groups and recruitment strategies such as information sessions for first-year students and collaborating with faculty and staff.

Supporting students through the application process:

Many students start scholarship applications, but never finish them. This session should include advisors sharing tips and best practices for supporting students through the process.

Writing a Competitive Essay:

This session should be a discussion among advisors about the challenges and successes of advising students on essay writing. It should also include a discussion about essay brainstorming activities and tips.

Utilizing the Gilman and CLS Programs to build/expand study abroad campus capacity

Many institutions utilize study abroad scholarships to expand study abroad capacity on their campuses, which often includes expanding staff numbers, gaining campus senior leadership support of study abroad activities, engaging faculty, cross-departmental relationship building, and leveraging other scholarship dollars. In this session, participants should have time to discuss strategies their office or campus have employed and the associated challenges and successes.

Strategies for leveraging Gilman and CLS Programs on campus

This session should allow for participants to share how they leverage Gilman and CLS to support students with financial need. Discussions can include how to prepare students to budget for their time abroad and best practices for combining other resources on campus with Gilman and CLS.

Strategies for increasing awareness of study abroad opportunities

This should be an interactive session that utilizes the skills and expertise of participants and focus on various strategies for increasing applicants for study abroad and awareness of these programs on campus. This might include a panel discussion and small-group activities related to campus networks, outreach activities, and utilization of study abroad alumni. Advisors should be encouraged to share best practices.

Engaging and leveraging Gilman and CLS Alumni

This session should be a moderated panel with 3-5 alumni who share about the following topics: how they learned about study abroad (including internships and language study), their specific program, and the Gilman or CLS program; tips and tricks for the application process; and 1-2 examples of how their overseas experience has impacted their academic, personal and professional trajectories.
